- Automatic capital contribution system, optimizing cash flow.
- Ensuring long-term profits and limiting risks.

## Pool Business Model

- Funds using Finser platform to participate in capital contribution
- Supported connection, increasing the ability to successfully link capital contribution.

# OVERVIEW OF FIN TOKEN

FIN is the foundation token of the Finser ecosystem and represents the digital assets encoded from the DCA Pool capital contribution activities of financial members. With core roles:

## **Utility Token**

Used to participate in business packages, exchange services and trade NFT assets in the ecosystem.

## **Profit distribution**

Participate in sharing and receiving rewards from capital contribution activities to Pools through staking or holding tokens.

## **Long-term growth**

Allocation policies, supply restrictions and broad ecosystem linkages help FIN develop sustainably.

# OVERVIEW OF FIN TOKEN

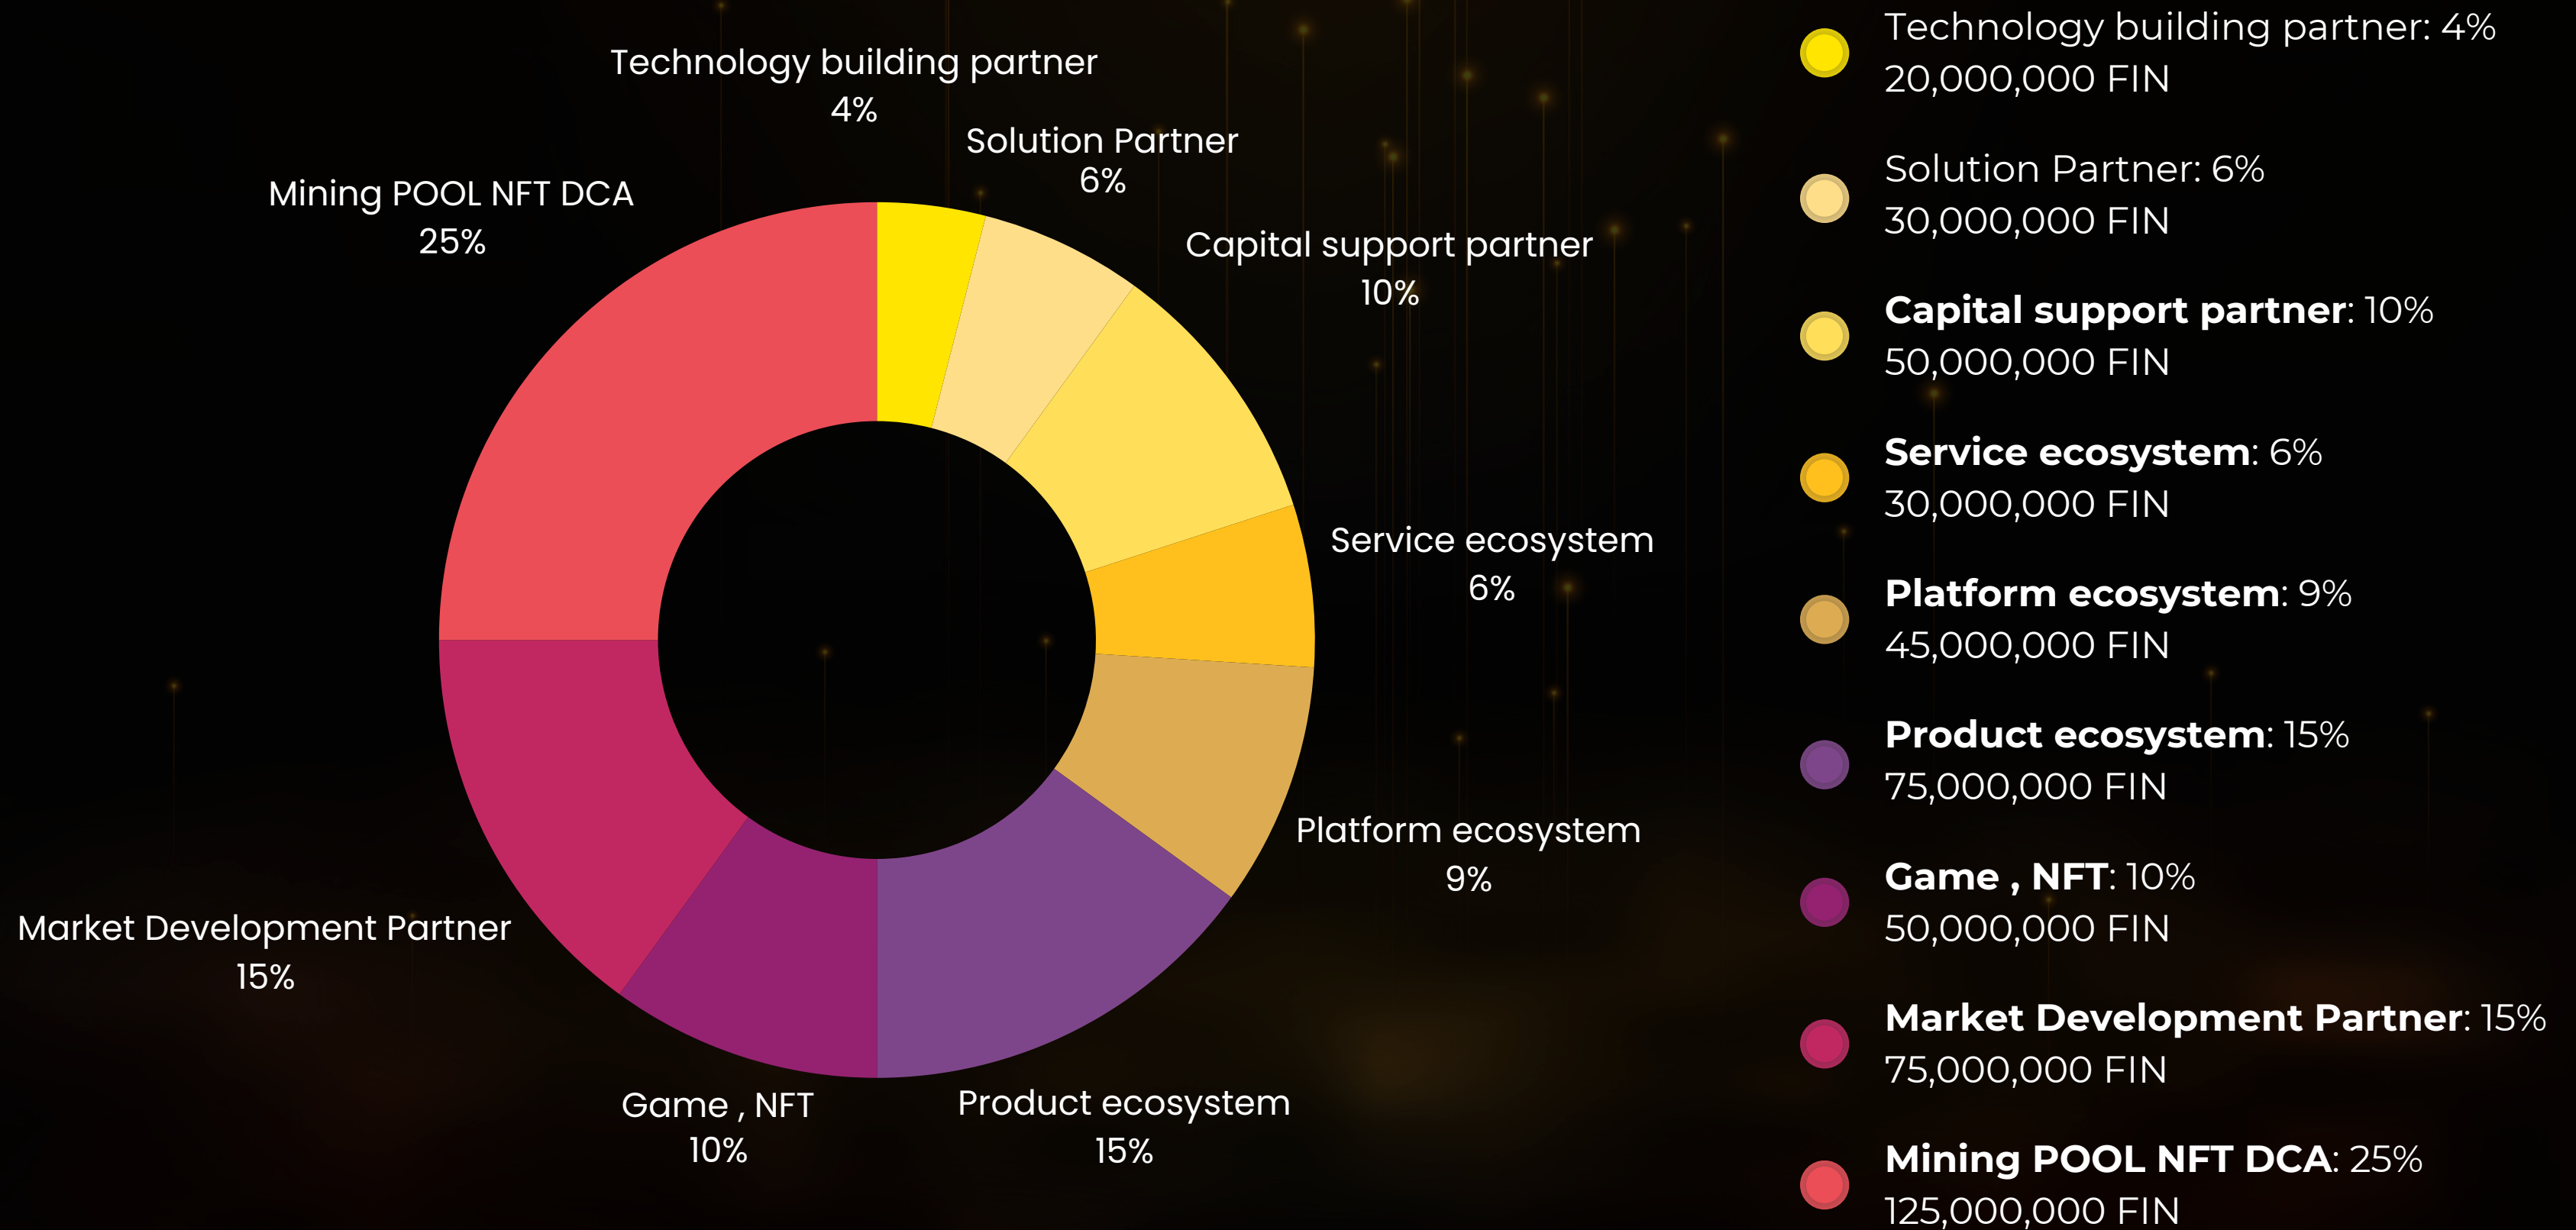

FIN is the utility token of the Finser Pool ecosystem, built on Binance Smart Chain's BEP20 platform:

- **Token name:**  
**Finser**
- **Symbol:**  
**FIN**
- **Platform:**  
**BSC Chain**
- **Total supply:**  
**500,000,000 FIN**
- **Decimal:** 18

# TOKENOMICS

# DEVELOPMENT ROADMAP

## Step 1

**Pool DCA:** Contribute capital by averaging the price over a period of time.  
**Pool Staking:** Lock tokens to receive benefits - interest.  
**Pool NFT-RWA:** Encrypt real assets into NFT (real estate, shares, certificates ...).

## Step 2

**Pool Farming:** Generate income from providing liquidity.  
**Pool Swap:** Internal digital asset trading between 2 ecosystems.  
**NFT E-commerce Platform:** E-commerce auction of NFT-RWA assets.

## Step 3

**Building Finser Blockchain:** Become a Crowdfunding Platform.  
**Create your own project NFT:** Each individual/startup group.  
**Finser Launchpad:** Where new Pools are moderated - evaluated - supported for deployment.

## Step 4

**DCA ETF:** A collection of DCA Pools ranked by risk and maturity.  
**NFT-RWA ETF:** Includes real asset pools: real estate, brands, digital assets.  
**Enterprise ETF:** A collection of successful startup projects that have raised capital.

# **PARTICIPATION & REWARDING MECHANISM**

- Participating members have 1 NFT product.
- NFT is put into the NFT DCA POOL platform to create reward time
- Rewards are paid daily according to the % of each NFT package.
- There are 3 NFT time

## **Basic Package**

**3% / month**

Payback in 6 months

## **Standard Package**

**5% / month**

Payback in 9 months

## **Advanced Package**

**8% / month**

Payback in 12 months

### **Note:**

- Minimum investment capital from \$100 – Maximum \$10,000.
- After reaching maxout, members must reinvest to continue receiving rewards. Otherwise, they will not be able to share the profit of 1 Pool after the end of the DCA process.

# REWARD SYSTEM SHARE LINK

Product	NFT Basic	NFT standard	NFT advanced
F1	50%	50%	50%
